DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1 is, claims 1, 2, 7, 8, 16-19, and 20-22, drawn to a sputtering target containing Sn-Cu alloy.

Group 2 is, claims 3, 4, 7, 8, 16-19, and 23-25, drawn to a sputtering target containing Al-Cu alloy.

Group 3 is, claims 5, 6, 7, 8, 16-19, and 26, drawn to a sputtering target containing Ti-Cu alloy.

Group 4 is, claim 27, drawn to a method of manufacturing a copper alloy sputtering target.

In claim 7, applicants must elect only one element such as (Sn, Al, or Ti) according to element recited in the Groups 1-3.

The inventions listed as Groups 1-4 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group 1 contains Sn-Cu alloy sputtering target. Group 2 contains Al-Cu alloy sputtering target. Group 3 contains Ti-Cu alloy sputtering target. Other than the alloy compositions are different, the x-ray diffraction peak intensity ratio of Sn is different from Al or Ti. Group 4 is a

method of manufacturing a copper alloy sputtering target for unspecified Cu alloys. The steps recited in Group 4 are not in Groups 1-3.

Applicants are advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that when amendment and/or revision is required, applicant should therefore specifically point out the support for any amendments made to the disclosure. See 37 C.F.R. § 1.121; 37 C.F.R. Part §41.37 (c)(1)(v); MPEP §714.02; and MPEP §2411.01(B).
